

HOME LEARNING: UNDER 2'S

Newsletter 13th April 2020

Hi everyone!

This home learning newsletter has ideas for activities which follows our curriculum, Early Years Foundation Stage (EYFS). The activities have been selected carefully for your child's age range however you know your child best, so adapt it as necessary to achieve the best outcome.

If your child doesn't seem interested in an activity, don't be disheartened or assume they can't or won't do it. Leave it a while and try again or do something completely different. Most importantly, have fun with your child!

Communication and Language

Find some objects from around the house, maybe include ones which your child may not know what it is. Put them together on the floor and explore them. Ask for an object and wait for them to find it. This activity is to encourage understanding of new words, so talk about where you use these objects as well.

Physical Development

Encourage your child to use a spoon at mealtimes. Get the action of lifting their hand to their mouth by blowing bubbles or any other way you can think! This may be a messy activity but practice makes perfect :)

Personal Social and Emotional

Roll a ball to your child and encourage them to roll it back. This is a cooperation activity and involves turn taking. Make the distance between you longer to try and teach trust, that you are still playing the game and you're not going anywhere.

Reminder

Remember to teach your child to wash their hands regularly and for the recommended time of 20 seconds. Make it fun by singing with them and giving lots of praise and attention. Younger children may not like it at first, but they very quickly adjust, especially if you model washing your hands regularly.

Remember to take photos and upload them to your child's tapestry account, we can't wait to see what you have been up to at home!
